Campus Life

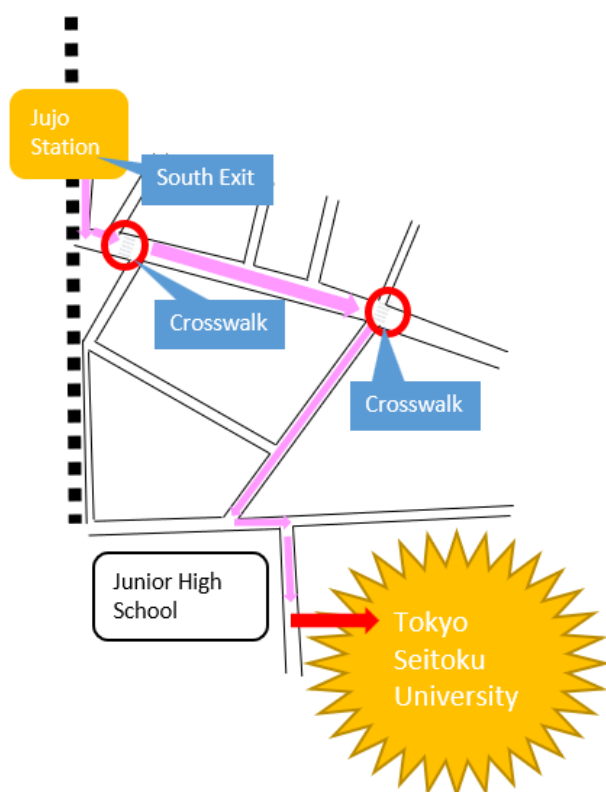

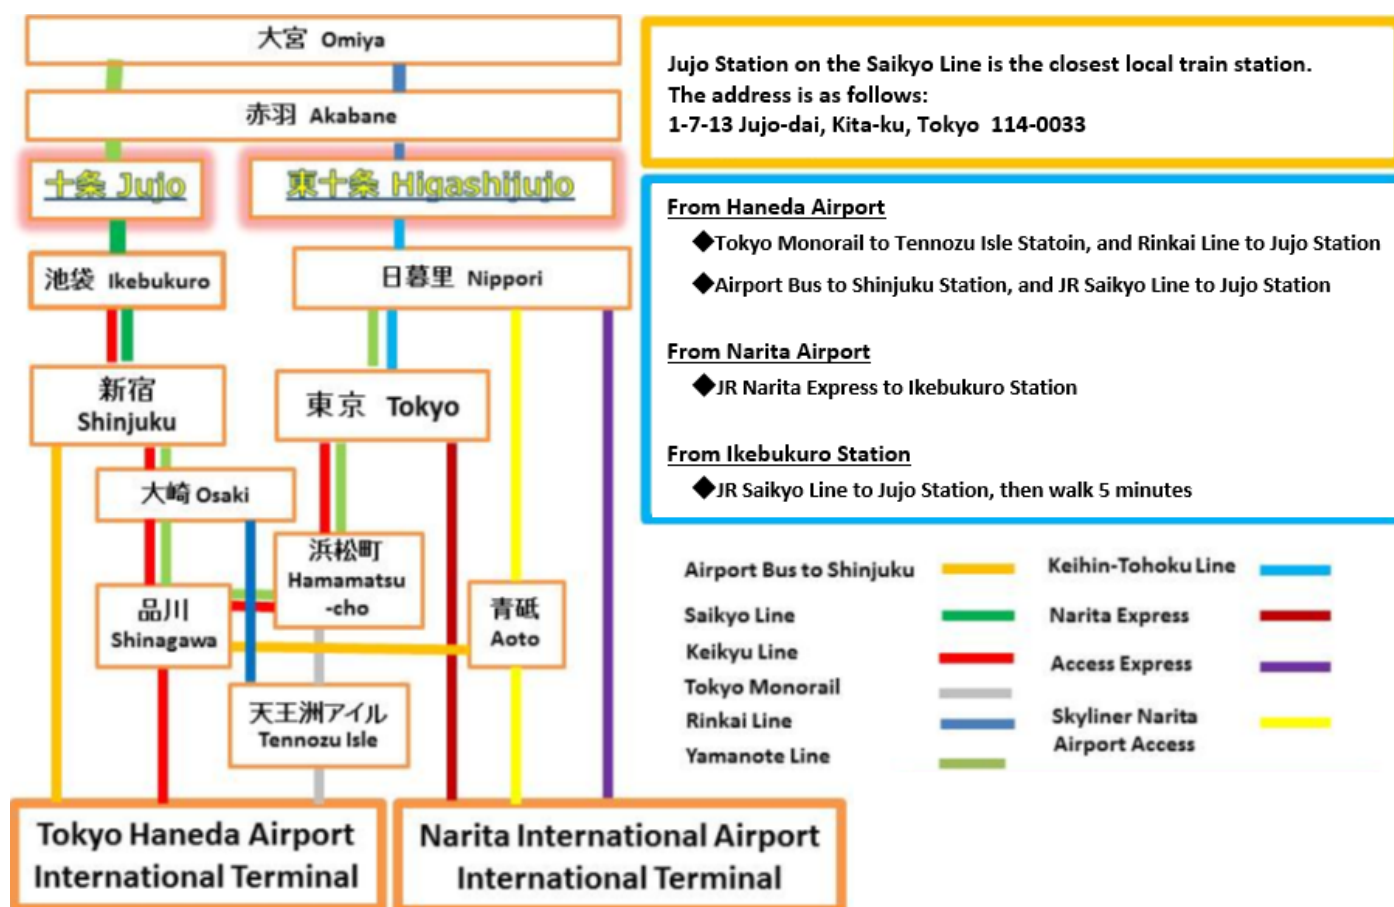

“The Global Education Center” was established in April 2020 as a part of affiliated organizations of the university, to promote cooperation with foreign universities.

This center takes charge of sending our students to and accepting international students from overseas universities based on the student exchange agreement by Memorandum of Understanding (MOU). It goes without saying that we also send our students to overseas universities without MOU.

We also plan and implement lectures and workshops on global issues to promote students’ awareness of the importance of international affairs and globalization.
